## Directions from the A1: Southbound

Go down the A1 single carriageway until you join the Alnwick bypass, which is dual carriageway. Keep on the dual carriageway until it again goes single. One mile further on take a left turn at the sign which reads "Felton/Thirston (B6345)". Continue for another mile and when you hit the flashing 30 mph speed sign at West Thirston turn right at the sign "East Thirston Acklington B6345". Keep on this road; it will take you all the way to Acklington. You know you have arrived when you go over a stone bridge over the main line railway, dotted line on map insert above.

## Directions from the A1: Northbound

From Newcastle direction drive along the dual carriageway until the road becomes single carriageway at Morpeth.

Continue along the single carriageway for 4 miles but be warned, half a mile along the single carriageway on the left hand side there is a speed camera – the last one you will encounter. Watch out for the large pub sign for the Oaks public house on the left. Turn right off the A1 immediately. The sign shows Acklington / Chevington Moor.

Continue along this road for about a mile until you come to the first junction, a crossroads. Turn left. Keep on this road for a couple of miles until you meet a staggered T-junction signposted "B6345 Acklington". Turn right up the hill and this road will take you all the way to Acklington village. You will know that you have arrived when you pass the Agricultural Mart on the right and go over a stone bridge. Go down drive far side of the school and park behind my house.
